Lecompton Passed!

As we intimated last week, a bill to admit Kansas has been patched up and they salled it juice of the apple, he would go it! The Lecompton Democrats, after may prove much worse. Speculators opposing the Montgomery amendment, who had Land Warrants which they sold he lived in the days of New England duce the same result; and a majority of the Anti-Lecompton Democrats, after something fully as mean and far less land for security. Just think of borrow- We have received from Hon. manly; for, while English's bill virtually submits Lecompton to the people, it is infinitely more rescally than the original bill, because more sneaking and insulting. This English was one of the few Northorn members who were re-elected after voting for the Nebraska Bill-we shall see whether Indiana will heap additional disgrace upon herself, by re-electing him again, after this last piece of demagoguery. 'If also remains to be seen how those other Congressmen will fare, who, after standing out against Lecompton from the first, submitted to the English scheme, for no other alleged reason, than that it ranks The peace of Kansas, or of the country, is nothing; but peace must-by all means be preserved among the Democracy !

English's bill amounts to about this The land grants provided for in the Ordi-Representative in Congress.

your population is sufficient to come in as a Slave , State, and we will pay you well for so doing; but if you refuse to One Dollar a year." come in thus, you have not a sufficient population for a State, and must wait until you have, and do without the land. too. If that is not the quintessence of rascality, where can it be found? And this it is, we are told, which restores

harmony among the Democracy!
We predict that the people of Kansas will send the thing up so fast that they will make it fairly whistle. They have worked too long and hard against this swindle, to be bribed into its support now, even if they were offered every foot of land in Kansas for so doing. There are no doubt some men calling themselves Free State, who will argue that we may as well accept this thing-Kansas will never be a Slave State, anyhow-we can alter the Constitution whenever we please -and we might as well take the land when we can get it. But the game won't work. We have not learned when the vote is to be taken ; but whenever it does come, the people will spurn the insult in such a manner that its authors will be left in no doubt as to their meaning.-Even if we do get the land, in the present corrupt state of affairs in Kansas, it will be "gobbled up " by a few-wirepullers, and the mass of the people will realise no benefit from it whatever. And Kansas cannot be kept back from a lack of population. She has at least 75,000 now, and by next fall will have more than enough to entitle her to a Representative to Congress. So that a Constitution can be formed, and sent to Congress at the next session.

A considerable amount of trade is beginning to come to this place, from the Big Blue and Vermillion country, extending back from fifty to seventy-five This trade has heretofore all gone elsewhere. But the people out there have beggin to realize the fact, which we have be found the Card of Moore and Gilmore, asserted many times, that White Cloud Carpenters and Joiners, who are prepared is six miles nearer to the back country to attend to all calls in their line. They G. Scrafford advertises, this week, that than any other town in Kansas, there are are young men of industrious habits, and he will soon have any amount of brick, as large supplies of goods of all kinds competent to do all work in their line of the best quality, for sale at this place. as at any other river town.

CURRANT BUSHES. -- Any one can raise current bush, but the thing is to raise a fine bush. Take young sprouts-last was in consequence of the death of Sen- the lower portion of the shoot for about As the roots of the current do not extend SENATE.—Mr. Mason presented the themselves far in search of food, they redentials of Hon. Thos. L. Clingman as should be well supplied yearly with rotten inches every spring, according to extent of growth.

The culture of this excellent fruit is usually much neglected, even in the best lief that a current bush can thrive and produce fruit in any situation, and without culture. It will live and bear apology for fruit, but it is nearly all skin and seeds and citric acid. Those who have once seen and tested the produce of bushes properly cultivated, will be surprised at the ichness and perfection of flavor which this fruit may be made to attain. Plant eight feet apart, treat well, and for twenty years your table may be supplied with this cheap and healthful luxury costing you really nothing at all .- Real Betate

SAVE GARDEN SEEDS.—The first vegsave for seed . the first stalk of okra that shows a pod, let it go to seed. In this way we may succeed in getting much ear-lier vegetables than by following the usuappear, for seed ? and yet if we would bring forward the whole crop two or three weeks earlier, it must be done. Let it be a settled maxim of the gardener-the first and best of everything for seed.

TRANSPLANTING EVERGREEN TREES. The great and only secret in transplant ing evergreen trees, and having them grow as well as deciduous trees, is to reco that they are always in leaf, and therefore always exhausting the root, and therefore the root must never become dry. If this is remembered, and at the same time common sense enough used to know what dry is-for one hour of open exposure to a drying wind will often destroy an evergreen—then there will be no trouble in transplanting evergreen. April and May are the best mostle for the work, but it can be done successfully in any month, except June and July.

SULPHUR FOR GRAPES. - Our friend, Robert Buist, speaking of the use of mi-phur to prevent mildew in graperies, says it has been known here for twenty rests, though the savons of Europe have just found it out. He recommends its use as follows:—"Take a few pounds of sulphur, and place it on several piaces of boards, as neatly as you please; keep then in your grapery, stirring the sulphur ones a week, and you will have no milder unless you give heavy waterings, and allow cold currents of air."—Germanican. (Pa.) Telegraph.

New GRAPTING WAX .- Take two our ces of common rosin, melt it slow ore the fire, being careful not to heat it so much as to make it throw off its spirit word in favor of Lecompton. If Mr. Breckenridge were not Vice President, he would be an anti-Lecomptonite; as it is, he is simply neutral.

A Washington correspondent of a syrup, add a little less than one once of alcohol, and mix well and put it is a syrup, add a little less than one once of alcohol, and mix well and put it is a bottle at once and cork tight. Alcohol has been convicted of whirping one of the national administration, which is endeavoring to secure for him New York and applied to trees, it handens at once, sad applied to trees, it handens at once, sad forms an air tight covering.
